MESSAGE FROM THE PRESIDENT

Thanks for picking us up — we are happy to provide you the 2017 Guide to Marine Services. Produced by the Marine Trades Association of Maryland (MTAM), this annual guide shows boaters where to find the best services for your boat in the state! From North East to Solomons, from Ocean City to the Potomac, it's all inside this guide. Information about marina resorts, boatyards, historic ports of call, engine mechanics, yacht maintenance companies and other professionals are all right here.

Eric Bradley President

Maryland's maritime landscape is among the best in the world—both the in trades and the destinations. Boaters visit us from all over the world, seeking out the famous boat shows, boating schools, repair facilities and boat builders; the skills they are seeking can be found in the members of our trades association.

Did you know that more than 200,000 boats are calling Maryland their home port? These recreational vessels support 25,000 jobs in Maryland. So whether or you are a world class fisherman, day sailor, wake boarder or chicken-necking-crabber, whatever you do with your boat is big part of the regional financial picture, and a pillar of the state's economy (and its tourism appeal). MTAM is right in the middle promoting and protecting the marine industry. The Association has a growing workforce development initiative, getting much-needed young talent into the marine trades pipeline. Another big component of the association is our State lobbying; we recently capped the tax on boats at \$15,000, prevented a proposed tax on docking services and loosened Pilot requirements on recreational vessels travelling the Bay.

We hope you use this guide to find the best of Maryland's boating services—all who are listed inside are MTAM members. These businesses are supportive of the maritime industry in the State and know the importance of quality work and customer service. We welcome your comments, questions, suggestions, and support.

Kind regards,

Eric Bradley, *President*

Your Dollars at Work

The Waterway Improvement Fund was created to support the development, use and enjoyment of all Maryland waters for the benefit of the general boating public. Revenues for this fund are obtained primarily from the one-time 5 percent excise tax paid to the state. Legislation passed in 2013 adds 0.5 percent of the fuel tax collected to the fund as well.

Vessel Tax Cap

The tax on vessels titled in Maryland has been capped at \$15,000 as a result of legislation passed in 2013. This provides significant savings for vessels valued at \$300,000 and above.

The Waterway Improvement Fund provides grants and loans to local, state and federal agencies for a wide variety of capital projects and services for the boating public, including:

- ✓ Dredging and marking channels/harbors.
- ✓ Clearing debris and obstructions from navigable waters.
- ✓ Constructing/maintaining public marine facilities.
- ✓ Evaluating water-oriented recreation needs and capacities.
- ✓ Supporting Natural Resources Police marine operations.
- ✓ Providing boating education and information.
- ✓ Facilitating marine fire fighting, first aid and police vessels.
- ✓ Completing boating related shoreline erosion control projects.

dnr.maryland.gov/boating

Maryland Clean Marinas and Clean Boaters

Maryland's 154 certified Clean Marinas and partners as well as more than 350 marine pumpout facilities help protect and restore our waterways.

Additionally, hundreds of boaters have signed the Maryland Clean Boater Pledge, showing their commitment to reducing their impact on the water.

TO SUPPORT HEALTHY WATERWAYS...

- ✓ Use on shore restrooms when docked.
- ✓ Never discharge raw sewage. Use pumpouts and approved marine sanitation devices.
- ✓ Prevent fuel spills by keeping oil-absorbent materials on board. Oil absorbents can help keep the bilge oil-free as well.
- ✓ Don't use household cleaners on the boat. Plain water and elbow grease are best. Use non-toxic, biodegradable and phosphate-free cleaners sparingly.
- ✓ Patronize certified Clean Marinas and sign the Maryland Clean Boater Pledge.

dnr.maryland.gov/boating

Boating Safety Rules

WEAR YOUR LIFE JACKET

Life jackets must be U.S. Coast Guard-approved, in good and serviceable condition, readily available and of appropriate size for the intended user. Throwable devices (Type IV) also must be immediately available. If an inflatable device (Type V) is to be counted toward minimum carriage requirements, it must be worn. Life jackets are required onboard non-motorized vessels including canoes, kayaks and stand-up paddleboards.

CHILDREN'S LIFE JACKET REQUIREMENTS

All children under the age of 13 must WEAR a U.S. Coast Guard-approved life jacket (Type I, II, III or V) while underway on a recreational vessel under 21 feet in length.

The life jacket must be the proper size for the child and must be in serviceable condition. This requirement does not apply when a vessel is moored or anchored, or when a child is below deck or in an enclosed cabin. Also, a child under the age of four must wear a life jacket that features additional safety precautions, as appropriate for an infant, toddler or young child, so as to:

- ✓ Hold the child securely within the life jacket, including a strap that is secured between the child's legs to fasten together the front and back of the life jacket;
- ✓ Maintain the buoyancy of the child, including an inflatable headrest or high collar; and
- ✓ Ensure the ready accessibility of the child from the water, including a web handle.

TAKE A BOATING SAFETY CLASS

The Boating Safety Education Law requires that any person born on or after July 1, 1972, have in their possession a National Association State Boating Law Administrators certificate of boating safety education while operating a motorized vessel on Maryland waters.

dnr.maryland.gov/boating

BOATING AT STATE PARKS

Of Maryland's 72 state parks, the following have public boat launches. Some also offer boat rentals.

Do you know someone between the ages of 18-24 with a desire to work on/near the water?

Discover a Career where you work around boats and make great money!

Applications for the 2017 program are currently being accepted.

All applications will be reviewed and passed on to member businesses who are all looking to hire new workers.

12 lucky individuals will be placed into paid internships in Spring of 2017.

Find it: MTAM.org

Legislative History

One of the most significant benefits to membership in the Marine Trades Association of Maryland is our active input and participation into proposed legislation and regulations that affect boating in Maryland. MTAM has had a tremendous affect on making sure that Maryland waters remain some of the best waters in the world to recreate or in which to do business.

2016 Session: MTAM made permanent a \$15,000 limit on the amount of the vessel excise tax that may be imposed on any vessel; and requiring that the maximum amount of the excise tax imposed for any vessel be increased by \$100 on July 1, 2016 and July 1 of each subsequent year.

2015 Session: MTAM passed a bill to remove the mandate for bay pilots to be on board large yachts here for recreation. Large yachts bring valuable business in maintenance, repair, storage and tourism dollars.

2014 Session: MTAM opposed a bill that would have taken away the waterfront property owners ability to appeal decisions about proposed activities within tidal wetlands.

2013 Session: MTAM passed a bill to cap the excise tax on boats in Maryland. The bill also required .5% of the motor fuel tax increase after distributions to go to the Waterway Improvement Fund. This bill makes Maryland competitive with our neighboring states, creates jobs and helps us to capture the maintenance, storage and repair money associated with larger vessels.

2012 Session: MTAM worked to kill a luxury tax on boats valued at more than \$35,000 and defeated a bill that would have taxed the service of 'docking and landing' a boat

2011 Session: MTAM worked on a noise regulation that adds marine equipment to the list of exemptions that currently includes lawn mowers and leaf blowers from meeting 64dB during the hours between 7 a.m. and 7 p.m.

2010 Session: MTAM worked to inform elected officials about the impact of a Statewide No Discharge Zone. While MTAM supports efforts that reduce nitrogen levels in the Bay, this measure would have reduced the annual nutrient load by less than three thousands of 1%. The NDZ bill was defeated and valuable coalitions were built between MTAM and key stakeholders in the State.

2009 Session: MTAM successfully passed a bill that enables Counties to grant tax credits to working waterfronts defined as marinas, boatyards, etc. This Bill was as a result of the State Task Force to Study the Boating Industry.

2008 Session: MTAM closely monitored the bills pertaining to changes to the Critical Areas Commission. We successfully lobbied for the addition of "Commercial Marinas" as a separate entity. Through our input, the Commission, has acknowledged the difference between what is water dependent to a commercial marina being different from what is water dependent to a homeowner.

In the 2007 Special Session: We successfully worked to keep marine services off the list of taxable services.

2007 Session: MTAM worked to pass a bill that required the State to study economic development incentives for marine businesses, ways of extending the stay of the visiting boater, the permit process and other issues that impact the Maryland maritime industry.

2006 Session: MTAM defeated a bill that would have imposed a "lemon law" on all boat sales. In addition, we worked to defeat a bill that would have required life jackets to be worn at all times by all boaters. MTAM worked to support additional funding to the Tourism Department in Maryland reminding the legislator that some tourists visit Maryland by boat.

2005 Session: The Association passed a bill legalizing 8'6" boat trailers in Maryland. Prior to this piece of legislation, it was illegal to drive 8'6" trailers on our secondary roads where most boat ramps are located.

2004 Session: MTAM defeated a \$50 fee on the use of any commercial boat slips in Maryland. This "slip tax" targeted only those boaters who kept their boats in marinas. MTAM also defeated a proposal to do away with the trade-in allowance and passed a bill that allows an out of state resident who purchases a boat in Maryland to stay for at least 90 days.

Micron: Generations of Innovation

Every parent hopes their children will do well and have a better life than they did. At Interlux, we feel the same way about the products we make.

With each new advancement and generation of Micron® Technology comes better performing, higher quality solutions. Innovation is a tradition we are proud to have carried on for over 30 years.

From the long lasting and always dependable Micron CSC to our new, powerful water-based Micron Optima with Activated Biolux®, we build on our past success to deliver state of the art protection today.

Whatever the year, you know you'll always have the latest and best in Micron Technology.
